In Case of Difficulty

	If you encounter a problem, please review the items in the following checklist. This guide will help you isolate the problem if the unit is at fault. Otherwise, make sure the rest of your system is properly connected or consult your authorized Alpine dealer.	
	Initial Turn-on After Installation	
Symptom/Symptôme/Síntoma	Cause and Solution	
No function or display /Fonctions inopérantes ou pas d'affichage /La unidad no funciona ni hay visualización.	Car's ignition is off. If connected following instructions, the unit will not operate with the car's ignition off.	
	Improper power lead connections. Check power lead connections.	
	Blown fuse. Check the fuse on the rear panel of the unit; replace with the proper value if necessary.	

In Case of Difficulty

	Radio Mode
Symptom/Symptôme/Sintoma	Cause and Solution
Unable to receive stations./Impossible de recevoir les stations./Es imposible recibir emisoras.	No antenna or open connection in cable. Make sure the antenna is properly connected; replace the antenna or cable if necessary.
Unable to tune stations in the seek mode./ Impossible d'accorder les stations en mode de recherche automatique./Es imposible sintonizar emisoras en el modo de büsqueda.	You are in a weak signal area. - Make sure the tuner is in the DX mode. If the area you are in is a primary signal area, the antenna may not be grounded and connected property. - Check your antenna connections; make sure the antenna is property grounded at its mounting location. The antenna may not be the proper length. Make sure the antenna is fully extended; if broken, replace the antenna with a new one.
Broadcast is noisy/Réception parasitée./La recepción es ruidosa.	The antenna is not the proper length. Extend the antenna fully; replace it if it is broken. The antenna is poorly grounded. Make sure the antenna is grounded properly at its mounting location.

	Tape Mode
Output sounds dull./Sorlie de son atténuée./ El sonido se oye inestable.	The tape head needs cleaning. Clean the tape head. Incorrect Dolby NR in use. (TDM-7529T/7529F only) Check Dolby NR button setting.

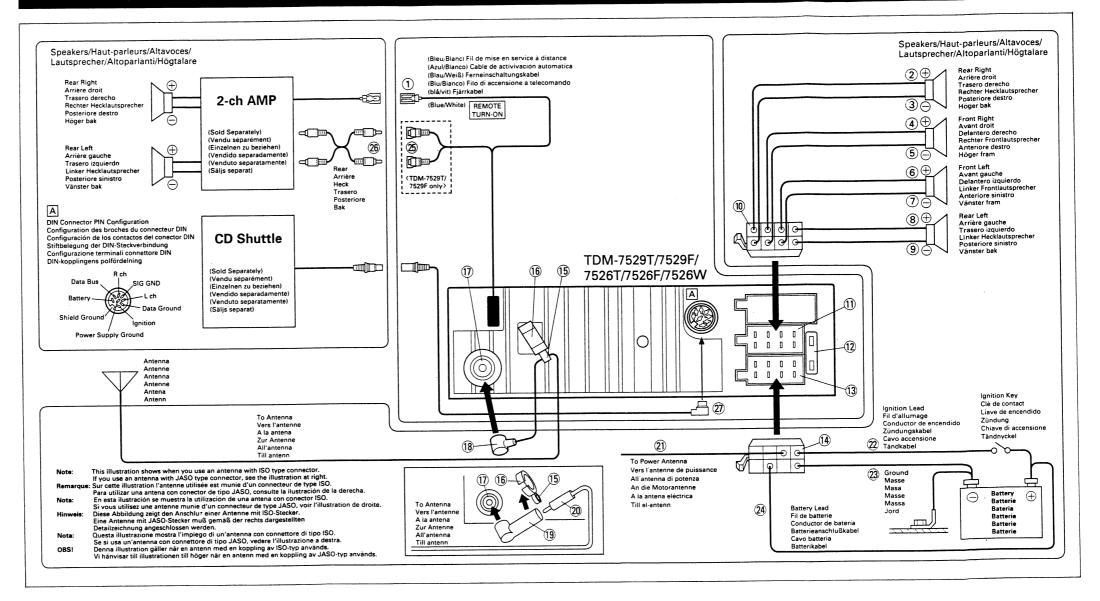

In Case of Difficulty

	CD Shuttle Mode
Symptom/Symptome	Cause and Solution
CD Shuttle not functioning./Le changeur CD ne fonctionne pas./El cambiador de discos compactos no funciona.	Out of operating temperature range +50°C (+120°F) for CD. Allow the car's interior (or trunk) temperature to cool.
CD playback sound is wavering. Le son de lecture de CD est déformé. El sonido de reproducción de un disco compacto oscila.	Moisture condensation in the CD Module. Allow enough time for the condensation to evaporate (about 1 hour).
Unable to fast forward or backward./Avance rapide ou inversion impossibles./El disco no avanza ni retrocede.	The CD has been damaged. Eject the CD and discard it; using a damaged CD in your unit can cause damage to the mechanism.
Sound skips due to vibration./Pertes de son dues à des vibrations./El sonido salta debido a las vibraciones.	Improper mounting of the CD Shuttle. Securely re-mount the CD Shuttle. Disc is very dirty. Clean the disc. Disc has scratches. Change the disc.
Sound skips without vibration./Pertes de son non dues à des vibrations./El sonido salta sin haber vibraciones.	Dirty or scratched disc. Clean the disc; damaged discs should be replaced.
Single (8 cm) disc does not play./Impossible de reproduire un CD de 8 cm./No es posible reproducir un disco sencillo (8 cm).	Single CD adaptor is not used. Attach a single CD adaptor (recommended by Alpine) to the single disc and insert into the CD magazine.

In Case of Difficulty

	Indication for CD Shuttle
Indication/Indication/Indicación	Cause and Solution
н	Protective circuit is activated due to high temperature. The indicator will disappear when the temperature returns to within operation range.
E-01	Maltunction in the CD Shuttle. Consult your Alpine dealer. Press the magazine eject button and pull out the magazine. Check the indication. Insert the magazine again. If the magazine cannot be pulled out, consult your Alpine dealer.
	Magazine ejection not possible. Press the magazine eject button. If the magazine does not eject, consult your Alpine dealer.
E-02	A disc is left inside the CD Shuttle. Press the EJECT button to activate the eject function. When the CD Shuttle finishes the eject function, insert an empty CD magazine into the CD Shuttle to receive the disc left inside the CD Shuttle.
EEEE	Misconnection or disconnection of the CD Shuttle. Check connections between the CD Shuttle and the control unit.
	No magazine is loaded into the CD Shuttle. Insert a magazine.
T-00	No indicated disc. Choose another disc.
